

	Evaluation Criteria	Requirements for Fulfilling the Criteria	Legal References
12.	System Evaluation of Overall Educational Achievements of the School	<ul style="list-style-type: none"> • School/school facility monitors and evaluates the overall achievements of children and pupils in applied educational programmes and also monitors the compliance of educational outcomes stated in SEP with requirements stated in FEP (completion of education and achieved educational level, eventually nodal points of the educational pathway). • School monitors frequency and causality of drop outs, evaluates them and takes measures. • School/school facility monitors effectiveness and successfulness of school systems in the area of safety and health protection, prevention of risky behaviour, and takes measures to correct the found imperfections. • School uses the external assessment of educational outcomes (e.g. comparison of achievements with other schools on regional, national and international level). • School monitors further success of the graduates (further study, labour market). • School/school facility monitors benefits of realized developmental project applied for SEP implementation. • School publishes educational results (e.g. www, school fairs). 	<p>Education Act No. 561/2004 Section 2 (1) g) <i>Principles and Goals of Education</i>; Section 10 <i>Annual Reports</i>; Section 12 <i>Evaluation of Schools, School Facilities and the Educational System</i></p> <p>Further legal provisions Relevant FEP Long Term Objectives of the Czech Republic (2011-2015)</p>

- 1) The respective criteria for evaluation are used in relation to characteristics of the inspected school or school facility. The criteria are always to be judged in mutual relation.
- 2) The **orange color** denotes the features which are prerequisite for status required. Their non-fulfillment constitutes imposition of a deadline for removing imperfections.
The **red color** denotes features the non-fulfillment of which constitutes a proposal to erasure from the school register.
